MARK JOSHUA G. REYES

Cavite, Philippines | (+63) 951-354-2276 | reyesmjosh@gmail.com

PROFESSIONAL SUMMARY

Full Stack Software Developer and technical lead with 4 years of experience building enterprise applications, government platforms, and data-driven systems across logistics, healthcare, retail, and public-sector environments. Strong expertise in C#, ASP.NET Core, SQL, Python, PHP, React, and cloud infrastructure, with experience supporting 10,000+ application users and public portals receiving 100,000+ monthly visitors. Proven background in systems architecture, engineering leadership, cloud cost optimization, workflow automation, and predictive analytics. Civil Service Professional eligible.

TECHNICAL SKILLS

Languages: C#, Python, PHP, Java, JavaScript, TypeScript, SQL, HTML5, CSS3
Frameworks: ASP.NET Core MVC, Entity Framework, React.js, Angular 17, Laravel 11, FastEndpoints
Databases: Microsoft SQL Server, MySQL, PostgreSQL, Firebase, SQLite
Cloud & DevOps: Microsoft Azure, AWS S3, Google Cloud Platform, Docker, CI/CD, Git
Tools: Visual Studio 2022, Postman, Swagger/OpenAPI, Jupyter Notebook, Android Studio

PROFESSIONAL EXPERIENCE

CELLWEGO CORPORATION | *Angeles City, Philippines (On-Site)* **Feb 2026 – Present**
Lead Developer
- Architect and deploy enterprise-grade IT infrastructure and cloud environments from the ground up to support scalable company operations.
- Lead the design and implementation of company-wide systems, establishing security, reliability, architecture, and engineering standards.
- Manage and mentor developers delivering scalable full-stack applications in a fast-paced product environment.

ENERGY REGULATORY COMMISSION (ERC) | *Pasig City, Philippines (Remote)* **Oct 2025 – Present**
Energy Regulation Technical Support Specialist / Full Stack Software Developer
- Develop internal Procurement and Inventory Management applications that digitize manual workflows and improve operational efficiency.
- Architect secure ASP.NET Core MVC and React platforms that replace legacy tracking processes and improve real-time data accuracy.
- Manage Azure resources using consumption-based strategies to align cloud costs with actual demand.

MICROSOURCING PHILIPPINES | *Pasay City, Philippines (Remote)* **Nov 2024 – Nov 2025**
Full Stack Software Developer
- Developed enterprise applications for a U.S.-based trucking and logistics client supporting more than 10,000 active users.
- Optimized SQL Server queries and .NET backend logic for high-volume logistics data, improving responsiveness and scalability.
- Delivered production features across multiple projects in an Agile, high-velocity development environment.

1LIFE PHILIPPINES | *Quezon City, Philippines (Remote)* **Jun 2024 – Dec 2024**
Software Developer
- Built Python and Jupyter-based analytics to identify disease hotspots and forecast sickness-related outages for medical mission planning.
- Developed inventory models that summarized medical demand by area to improve medicine allocation and emergency preparedness.
- Built secure health-data APIs using C# and FastEndpoints for frontend and analytics integrations.

ENERGY REGULATORY COMMISSION (ERC) | *Pasig City, Philippines (Hybrid)* **Jul 2023 – May 2024**
Computer Maintenance Technologist III / Lead Developer
- Led full-stack development of the ERC public website, the agency's primary portal for national energy regulations and public information.
- Engineered and maintained a high-traffic platform serving 100,000+ monthly visitors with a target of 99.9% availability.
- Maintained and modernized regulatory applications built with ASP.NET Web Forms and Microsoft SQL Server while preserving critical data integrity.

DOST-MIMAROPA REGION | *Taguig City, Philippines (On-Site)* **May 2022 – Nov 2023**
Project Technical Assistant I / Lead Developer
- Led development of the DOST Management System, automating employee onboarding, division assignment, and ID generation.
- Reduced paper-based processing and manual administrative work by digitizing onboarding workflows.
- Mentored three junior developers and led code reviews and architectural decisions for regional software projects.

SELECTED PROJECTS

Cellwego ERP (admin.cellwego.ph): Lead developer of a company-wide ERP platform automating end-to-end corporate processes in an optimized web environment.
ERC Website (erc.gov.ph): Lead developer of the Energy Regulatory Commission's primary public portal for national energy regulations.
AIM4DREAM (aim4dream.dostmimaropa.ph): Lead developer of an agricultural tracking application that reached 1,000+ downloads and a 4.8/5.0 rating before store migration.
CNS-Connects (cnsprotects.com/cns-connects): Co-developer of a professional networking platform for business connections in the logistics industry.
MIMAROPA Ventures (mimaropaventures.ph): Led development of a regional e-commerce platform using PHP and MySQL.
1Life Platform (1life.ph): Co-developed a health tracking and analytics platform with predictive medical inventory modeling.

EDUCATION

Bachelor of Science in Computer Science **2018 – 2022**
Don Mariano Marcos Memorial State University (DMMMSU-SLUC)

- Awards: Best College Thesis (CCS); University-Wide Best Thesis, Technical Category.
- Thesis: Implementing Responsive Design in the Web Portal for Barangay Community.

CERTIFICATIONS & TRAINING

Civil Service Professional Eligibility (2024) • In-depth Cybersecurity Training Caravan (2022) • AWS Cloud Management Training (2022) • Blockchain Training (2022) • NLP with Python for Machine Learning Essential Training (2020)
